

Hydrating Drinks / Water Coolers and Accessories

Gatorade® Instant Powder

During the day your body faces 3 problems from heat and physical exertion:

- Loss of water and electrolytes, which causes dehydration.
- Elevation of body temperature, which causes hyperthermia.
- Depletion of energy reserves, which may cause muscle exhaustion.

Gatorade® is scientifically formulated to help rehydrate your body quickly and help improve performance and productivity. Research done at the University of South Carolina has proven:

- 1) Gatorade® is absorbed into the blood stream as fast as water, helping to provide rapid rehydration.
- 2) Gatorade® is superior to plain water for improving physical performance during prolonged physical activity.
